SCF

48FT
TAUTLINER

SCF's 48ft Tautliner container offers additional cubic capacity for both palletised and irregular freight types. Operator use is made simple with safe access by one person available from both sides.

Details

With one of the largest container capacities in the range, SCF's 48ft Tautliner container provides extra space for 24 pallets or 48 pallets using the option of the mezzanine deck system.

Curtain access from both sides enables easy loading and unloading of freight while hanging gates and posts ensure operators remain safe.

The mezzanine deck system is designed to allow double stacking of pallets for quicker loading and cost efficiencies.

Multiple restraint points located in the bottom side rail and recessed into the floor allow for the cartage of both palletised and irregular freight.

SCF also produces a range of other sizes and variants to provide alternative capacity options to suit your requirements.

Key Features

— 2 pallet wide - up to 24 pallet spaces or 48 with a Mezz deck
— Hanging posts and gates
— Full lashing rail for restraint
— Load binder winches

Options

— Mezzanine deck system (48 pallets)
— 4 buckle curtain system
— Lightweight designs
— Curtain and container branding
